GABORONE

Tel: 3673722 /3673913

Fax: 3188130

PLOT 4358, BLOCK A, PRIME PLAZA, CBD GABORONE, BOTSWANA

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trademarks advertised in the schedule hereto may, within three months from the date of this notice, lodge opposition on **form 12** in duplicate together with the prescribed fees.

Formal opposition should not be lodged until after reasonable notice has been given in writing to the applicant so as to afford him an opportunity of withdrawing his application before the expense of preparing an opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Reproduction of the marks quoted below may be inspected at the Trademarks Registry, Plot 54358, Block A, Prime Plaza, CBD, Gaborone, Botswana.

(511) (510) Goods/Services: Classes	<p>(9) Computer hardware; Computer software; Application programming interface (API) for software which facilitates online services for data retrieval, upload, download, access and management; Computer peripheral devices; Virtual, augmented, and mixed reality software for use in enabling computers and mobile devices to provide virtual reality experiences; Software for integrating electronic data with real world environments for the purposes of entertainment, education, communicating; Virtual reality computer hardware; Virtual reality software for use in enabling computers and mobile devices to provide virtual reality experiences; Wearable peripherals for computers and mobile devices namely, configurable head-mounted displays; Augmented reality computer hardware; Virtual reality headsets; Augmented reality headsets; Virtual reality glasses; Augmented reality glasses; Augmented reality software for use in enabling computers and mobile devices to provide augmented reality experiences; Motion tracking sensors for virtual reality technology; Motion tracking sensors for augmented reality technology; Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; Digital media streaming devices; Headphones; Video display hardware; Wearable computing devices comprised primarily of software and display screens for connection to computers and mobile devices, and in order to enable virtual reality and augmented reality world experiences; Goggles for enabling virtual reality, augmented reality world experiences; Software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing and creating virtual reality and augmented reality experiences; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Hardware and software for detecting objects, user gestures and commands; Wireless computer peripherals; Head-mounted video display; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, data tags, hyperlinks; Downloadable computer software and mobile application software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application programming interface (API) software for allowing data retrieval, upload, access and management; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Computer software for organizing events; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via the internet and communication networks; Downloadable software, namely, instant messaging software, file sharing software, communications software for electronically exchanging data, audio, video images and graphics via computer, mobile, wireless, and communication networks; Computer software for personal information management, and data synchronization software; Computer software for use in facilitating voice over internet</p>		

protocol (VOIP) calls, phone calls, video calls, text messages, instant message; Communication software and communication computer hardware for providing access to the Internet; Electronic display screens; Smart glasses; Computer peripherals for remotely accessing and transmitting data; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer hardware for displaying data and video; Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphone; Digital video eyewear; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Wearable digital electronic devices; Computer software for setting up, configuring, operating and controlling wearable devices, computers, and computer peripherals; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Wearable computer hardware; Wearable computer peripherals; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality software; Augmented reality software for interactive entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Computer application software for smartphones and mobile

devices in the fields of fitness and exercise; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer operating systems; Computer search engine software; Computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for controlling the operation of audio and video devices; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content and electronic publications; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality effects, namely, graphics, animations, text, drawings, geotags, hyperlinks; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; Computer software, namely, an application providing social networking functionalities; Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Software and firmware for displaying electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for

communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for finding content and content publishers, and for subscribing to content; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Gesture recognition software; Software for detecting objects, user gestures and commands; Software for operating sensor devices; Software to view virtual images in creating virtual, augmented and mixed reality; Interactive entertainment software; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Messaging software; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer software specifically adapted for goggles; Near eye display systems comprising software for the generation and display of standard reality, augmented reality, and mixed reality content; Personal assistant software; Social assistant software; Software and firmware for controlling, configuring and managing controllers; Software and firmware for displaying electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software development tools; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems;

Software for converting natural language into machine-executable commands; Software for creating and managing social media profiles and user accounts; Software for creating, managing and accessing groups within virtual communities; Software for creating, managing, and interacting with an online community; Software for integrating electronic data with real world environments for the purposes of entertainment, education, communicating, and social networking; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social and destination mapping; Software for social networking; Software for streaming multimedia entertainment content; Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use as an application programming interface (API); Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software and firmware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Video display software; Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Waterproof near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; Computer software for social networking; Computer software for organizing, searching for and managing events; Virtual reality game software; Augmented reality game software; Augmented reality game computer hardware; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Electronic game software for wireless devices; Electronic game software for handheld electronic devices; Electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Video game software; Interactive multimedia computer game programs; Downloadable electronic game programs; Computer game software; Headsets for use with computers; Computer software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Computer software for converting natural language into machine-executable commands; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Computer software, downloadable computer software and mobile application software for ordering and/or purchasing goods and services; Virtual reality game computer hardware; Virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Augmented reality software for use in enabling computers, video game consoles, handheld video game

consoles, tablet computers, mobile devices, and mobile telephones to provide augmented reality experiences; Handheld virtual reality controllers; Handheld augmented reality controllers; Earphones; Computer software for navigating a virtual reality environment; Computer software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality and augmented reality experiences; Headsets; Computer software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Computer software for use in creating and designing virtual reality and augmented reality software; Computer software and firmware for operating system programs; Computer software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; Computer software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Computer hardware and software for operating sensor devices; Computer hardware and software for detecting objects, user gestures and commands; Computer software and firmware for controlling, configuring and managing controllers; Computer software and firmware for enabling electronic devices to share data and communicate with each other; Computer software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Cameras; Batteries; Battery packs; Remote controls for mobile electronic devices; Electrical audio and speaker cables and connectors; Audio speakers; Docking stations for mobile electronic devices; Loudspeakers; Electronic cables parts and fittings; Electric cables; Connection cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Wireless computer peripherals; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; Downloadable software in the nature of a mobile application; Downloadable computer software for processing images, graphics, audio, video, and text; Downloadable virtual goods; Downloadable files authenticated by non-fungible tokens [NFTs], (36) Financial, monetary and banking services; Financial services, including digital tokens; financial trading services in the field of non-fungible tokens [NFTs]; Financial transaction processing services, namely, providing secure electronic transactions and payment options; Electronic processing of bill payment data for users of the internet and communication networks; Payment transaction processing services; Electronic funds transfer services; Electronic credit card, debit card, and gift card transaction processing services; Providing electronic mobile payment services for others; Financial services; Payment processing services; Financial transaction services; Facilitating and arranging fundraising and the distribution of fundraising donations; Charitable services, namely, coordination of the procurement and distribution of monetary donations from individuals and companies to third-parties; Providing bill payment services via electronic mobile applications; Financial services, namely, providing a virtual currency for use by members of an online community in connection with video games, live streaming content, and video on demand content via the internet and communications networks; Financial exchange; Electronic mobile payment services for others; Virtual currency exchange; Electronic transfer of virtual currencies; Financial affairs, namely, financial management, financial planning, financial forecasting, financial portfolio management and financial analysis and consultation; Financial information provided by electronic means; Brokerage services; Dealer services, being in the field of securities, stocks, bonds, and investment funds; Currency dealing services; Digital currency services; Cryptocurrency services; Virtual currency services; Digital currency wallet payment services; E-wallet payment services; Electronic wallet payment services; Financial services relating to electronic wallet services; Bill payment services

provided via an electronic wallet; Electronic banking services via a global computer network; Currency trading; Electronic payment services involving electronic processing and subsequent transmission of bill payment data; Digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token trading services; Digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token processing services for others; Facilitating transfers of electronic cash equivalents; Providing information, including online, about financial and monetary affairs; Financial services, namely, providing virtual currency services for use by members of an online community via a global computer network; Issuance of tokens of value; Financial management of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Financial services, namely, providing a financial exchange for the trading of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Cryptocurrency trading services; Cryptocurrency exchange services; Cryptocurrency payment processing; Electronic payment services; Currency management services; Currency transfer services; Financial services, namely, providing electronic transfer of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Financial consultation in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Providing electronic processing and tracking of electronic funds transfers; Currency exchange services; Investment management services; Custodial services for financial institutions and funds; Listing and trading of swaps and derivatives on digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Monetary exchange; Clearing and reconciling financial transactions; Financial information services; Electronic financial trading services; Electronic financial trading, namely, trading of the field of digitized assets; Providing on-demand and real-time financial information about digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Providing information in the fields of investment and finance over computer networks and global communication network; Electronic trading of financial instruments; Electronic commerce payment services; Electronic processing and transmission of bill payment data for users of internet and communications networks; Financial transaction processing services, namely, providing secure commercial transactions and payment options; Financial transaction services, namely, providing a virtual currency for use by members of an online community via the internet and communications networks; Merchant services, namely, payment transaction processing services; Payment processing services, namely, providing virtual currency transaction processing services for others; financial exchange of virtual currency, digital goods and NFTs; non-fungible tokens and related services; Pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; insurance services; real estate services; advisory and consultancy services in relation to all the foregoing.

(38) Telecommunication services; Providing access to computer, electronic and online databases; Providing equipment for video conferencing; Teleconferencing; Mobile phone communication services; Telecommunications services, namely, offering personal communications services via wireless networks; Electronic transmission of voice, data, images, music, audio, video, multimedia, television, and radio by Internet and cellular telephone transmission broadcasting; Providing access to websites, databases, electronic bulletin boards, on-line forums, directories, music, and video and audio programs by means of Internet and cellular telephone transmission; Communication by computer, namely, electronic transmission of data, sounds, images and documents among computer

users; Photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content among internet users; Telecommunication services, namely electronic transmission of data, messages, graphics, images, audio, video and information; Providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; Telecommunications services, namely, electronic transmission of data, messages, graphics, images, audio, video and information; Providing online forums for communication on topics of general interest; Providing online communications links which transfer mobile device and internet users to other local and global online locations; Facilitating access to third party websites or to other electronic third party content via a universal login; Providing online chat rooms, email and instant messaging services, and electronic bulletin boards; Audio, text and video broadcasting services over the internet or other communication networks; Voice over internet protocol (VOIP) services; Telephony communication services; Providing access to computer databases in the fields of social networking, social introduction and dating; Peer-to-peer photo and data sharing services, namely, electronic transmission of digital photo and video files, graphics and audio content among internet users; Telecommunications and peer-to-peer network computer services, namely, electronic transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; Telecommunications services, namely, electronic transmission of virtual and augmented reality content and data; Providing electronic bulletin boards for transmission of messages among users in the field of general interest; Video conferencing services; Providing technical support services regarding the usage of communications equipment; Providing facilities and equipment for video conferencing; Audio and video teleconferencing services; Providing an online community forum for users to share and stream information, audio, video, real-time news, entertainment content, or information, to form virtual communities, and to engage in social networking; Electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications networks; Telecommunication services, namely electronic transmission of data, messages, graphics, images, audio, video and information; Providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; Audio, text and video broadcasting services over the internet or other communication networks; Voice over internet protocol (VOIP) services [transmission of voice information via the internet]; Telephony communication services [communications by telephone]; Audio and video teleconferencing services; Electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications network; Encrypted electronic transmission and delivery of recovered data; File sharing services, namely, providing online forums for others featuring technology enabling users to upload and download electronic files; Providing access to computer databases and online searchable databases in the fields of social networking.

(41) Education; Entertainment services; Entertainment, namely, live music and concerts; electronic publishing services; entertainment services, namely, providing virtual reality interactive entertainment and virtual reality content; entertainment services, namely, providing virtual reality interactive music and concerts; entertainment services, namely, providing augmented reality interactive entertainment and augmented reality content; entertainment services, namely, providing mixed reality interactive entertainment and mixed reality content; entertainment services, namely, providing augmented reality interactive entertainment content; entertainment services, namely, providing online virtual reality environments; providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information and communication networks; arranging and conducting of workshops; entertainment services, namely, contest and incentive award

programs designed to reward program participants who exercise, participate in sports activities, engage in health-promoting activities, make achievements in exercise and sports activities, and reach personal goals regarding exercise, sports activities, and fitness; providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; Arranging and conducting of workshops; augmented reality video production; conducting and providing access to on-line live workouts, fitness instructions and sessions; conducting fitness classes; entertainment services, namely, providing non-downloadable movies, television shows, webcasts, audiovisual, and multimedia works via the internet, as well as information, reviews, and recommendations regarding movies, television shows, webcasts, audiovisual, and multimedia works; entertainment services; entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics, and entertainment software and hardware; entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; entertainment services, namely, providing an online forum for the dissemination of content, data, and information for entertainment and social and business networking purposes; entertainment services, namely, providing online augmented reality environments; entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; entertainment services, namely, providing online mixed reality environments; mixed reality video production; multimedia production services; online journals, namely blogs featuring commentary, advice and information in the fields of health, wellness, sleep, fitness and nutrition; organizing contest and incentive award programs for software developers; organizing exhibitions and events for entertainment purposes; organizing live exhibitions and conferences in the fields of culture, entertainment and social networking for non-business and non-commercial purposes; personal coaching services in the field of sports, exercise, health, and fitness; photosharing and video sharing services; providing fitness coaching, instructions, information and sessions, via a website; providing computer, electronic and online databases in the field of entertainment; providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; providing of training; rental of photography and videography kiosks for capturing, uploading, editing and sharing of pictures and videos; sporting and cultural activities; virtual reality video production; electronic publishing services for others; entertainment services, namely, facilitating interactive and multiplayer and single player game services for games played via the internet or communications networks; Providing information about video games, electronic or interactive multimedia games via the internet or communications networks; Arranging and conducting competitions and facilitating events for players of electronic or interactive multimedia games; Online journals, namely, blogs about virtual reality and augmented reality; Entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality content; Providing a computer game for use network-wide by network users; Providing online virtual reality games; Providing online augmented reality games; Entertainment services, namely, providing online video games; Organizing exhibitions and events in the field of interactive entertainment, virtual reality, and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; providing online computer and video games;

Entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content; virtual reality game services provided online from a computer network; augmented reality game services provided online from a computer network; providing online computer games and interactive games; production of video and computer game software; entertainment services, namely, providing augmented reality games and interactive entertainment content; Providing information about online computer games and video games via computer or communication networks; Providing information, including through online links and electronic resources, related to sports, health, and fitness.

(42) Software as a service (SAAS); On-line non downloadable virtual goods and NFTs; blockchain as a service [BaaS] for creating and managing non-fungible tokens [NFTs]; providing temporary use of non-downloadable software for enabling members of an on-line community to receive, access, spend and trade non-fungible tokens [NFTs]; Application service provider (ASP); Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Application service provider (ASP) featuring software for mapping services; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer software consultation; Computer software, application, and network consulting services; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Mobile computer and mobile communications device software consultation; Non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Non-downloadable software for streaming multimedia entertainment content;

Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; Online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Hosting online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Hosting online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Providing temporary use of non-downloadable social assistant software; Providing temporary use of non-downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; Providing temporary use of non-downloadable software for online charitable fundraising services and financial donation services; Providing temporary access to non-downloadable computer software for mapping services; Providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing temporary use of non-downloadable computer software for social and destination mapping; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; Providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing temporary use of non-downloadable software for electronic messaging; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality effects, namely, graphics, animations, text, drawings, geotags, hyperlinks; Providing temporary use of non-downloadable software for processing electronic payments; Providing temporary

use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, social networks, text files, and multimedia files; Providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Technical support services, namely, troubleshooting in the nature of diagnosing computer software problems; Technical support, namely, troubleshooting of computer software problems and mobile computer and mobile communications device software problems; Computer services, namely, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; Computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data on the internet and communication networks; Application service provider (ASP) services; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Providing online sites that give users the ability to upload, modify and share virtual reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share augmented reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share mixed reality content, information, experiences and data; Non-downloadable software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; Software for electronic messaging; Non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; Non-downloadable computer software for social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; Non-downloadable software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; Non-downloadable software for providing a virtual

marketplace; Non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Providing temporary use of non-downloadable personal assistant software; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; Maintenance and repair of computer software; Non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology via the internet; Computer services, namely, cloud hosting provider services; Online non-downloadable cloud computing software for use in electronic storage of data; Online non-downloadable cloud computing software for virtual, augmented reality applications and environments; Hosting of digital content on the internet; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable software applications for providing location-based weather information; Providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; Providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; Providing temporary use of non-downloadable software for organizing images, video, and audio-visual content; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Providing temporary use of non-downloadable computer software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Data encryption services; Encrypted electronic transmission and delivery of

recovered data; Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) featuring computer software for personal information management; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the Internet; Provision of Internet search engine services; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (ASP), namely, hosting computer software applications through the internet of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Software as a service (SAAS) services, namely, hosting software for use by others for use providing an online database featuring a wide range of general interest information via the internet; Providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Computer consulting, computer programming; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; Computer hardware, software, application, and network consulting services; Providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, text files, and multimedia files; Application service provider (ASP), namely,

hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; Non-downloadable software for providing personal training services, workouts and fitness assessments; Hosting an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Design and development of computer hardware and software; Hosting online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Development of hardware for use in connection with electronic and interactive multimedia games; Electronic and interactive multimedia game development services; Providing temporary use of non-downloadable software for ordering and/or purchasing goods and services; Providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Providing temporary use of non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Platform as a service (PAAS) featuring computer software platforms for social networking and transmission of images, audio-visual content, video content and messages; Design and development of computer game hardware and software; Design and development of virtual reality hardware and software; Design and development of video game hardware and software; Design and development of augmented reality hardware and software; Computer software development; Design and development of interactive multimedia software; Providing temporary use of non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology and software development via the internet; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; Hosting of digital [virtual reality and augmented reality] content on the internet; Design of advertising materials for others; Providing online resources for software developers; architectural and urban planning services for the virtual space; Scientific and technological services and research and design relating thereto; Industrial analysis, industrial research and industrial design services; Quality control and authentication services; advisory and consultancy services in relation to all the foregoing.
