GABORONE

Tel: 3673722 /3673913

Fax: 3188130

PLOT 4358, BLOCK A, PRIME PLAZA, CBD GABORONE, BOTSWANA

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trademarks advertised in the schedule hereto may, within three months from the date of this notice, lodge opposition on ***form 12*** in duplicate together with the prescribed fees.

Formal opposition should not be lodged until after reasonable notice has been given in writing to the applicant so as to afford him an opportunity of withdrawing his application before the expense of preparing an opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Reproduction of the marks quoted below may be inspected at the Trademarks Registry, Plot 54358, Block A, Prime Plaza, CBD, Gaborone, Botswana.

(511) (510) Goods/Services	6: Kiosks of metal (non-digital); metal gates; security closures of metal; metal barriers for pedestrian traffic control; transportable metal structures; parts and fittings for the aforementioned goods, namely, common metals and their alloys and semi-finished products made of these materials: containers of metal (storage, transport), buildings of metal, frames of metal for building, poles of metal for building, guard barriers of metal; metal panels or boards (non-luminous and non-mechanical) used for signalling, route showing, publicity purposes, signboards of metal, advertisement columns of metal, signalling panels of metal, non-luminous and non-mechanical traffic signs of metal; parts and fittings for the aforementioned goods. 7: Robotic mechanisms being parts of loading-unloading machines and apparatus; lifting, loading and transmission machines and robotic mechanisms (machines) for lifting, loading and transmission purposes; mobile baggage conveyors; parts and fittings for the aforementioned goods. 9: Apparatus for recording, transmission, or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; data processing equipment; computers; computer software; artificial intelligence software; machine learning software; computer vision software; natural language processing software; computer software for predictive analysis; computer software for data collection; computer software for use as an application programming interface (API); computer software for use in connection with the recording of legal, financial, business and other economic transactions in databases, including blockchain databases; computer networks; computer terminals; communications apparatus and instruments; video communication equipment; graphical user interfaces and visual display units; graphical user interface software; computer programs; computer memories; computer interfaces; microprocessors; modems; readers, being data processing equipment; reading apparatus and instruments, being data processing equipment; printers; computer software, computer hardware, hardware systems and software associated with verification, identification and authentication; computer apparatus and equipment; computer terminals, computer operating programs, computer hardware, computer software, computer software for use in the operation of passenger departure control systems, computer software for database access; computer software for retrieving information from databases; electronic systems comprised primarily of computers and computer peripherals for travel reservations, travel check-in and boarding control, electronic ticketing and electronic communications with transport reservation systems and databases; VPN (virtual private network) hardware being items of computer hardware; VPN (virtual private network)		

operating software; WAN (wide area network) hardware, WAN (wide area network) routers and WAN (wide area network) operating software; LAN computer cards, LAN access points; LAN (local operating network) hardware, LAN (local area network) operating software; LAN (local area network) access points for connecting network computer users; LAN (local area network) computer cards for connecting portable computer device to computer networks; wireless transmitters and receivers; wireless telephones; wireless routers; wireless receivers; wireless communication apparatus; wireless telephony apparatus; wireless broadband radios; wireless computer peripherals; wireless local area network devices; wireless high frequency transmission instruments; antennas for wireless communications apparatus; application software for wireless devices; computer software for wireless content delivery; computer software for wireless network communications; data exchange units; computer software for the wireless exchange of data; network management apparatus and software; network operating system programs; computer programs for network management; computer networking and data communications equipment; computer software for connecting computer network users; telecommunications apparatus for use with mobile networks; computer software for use in providing multiple user access to a global computer information network; computer software enabling the exchange of data; wireless communication apparatus enabling the exchange of data; computer software for sharing IT and communications infrastructure; aeronautical communications apparatus; real-time data processing apparatus; computer software for delivering real-time data and information; mobile telecommunications apparatus; mobile data apparatus; application software for mobile phones; software applications for use with mobile devices; internet access software; computer software platforms; shared connectivity platforms for transport hubs; WAN shared infrastructure for transport hubs; network security software; computer software for the creation of firewalls; computer anti-virus software; computer firewall software; network security hardware; VPN hardware; VPN operating software; application software for cloud computing services; application performance management software; integrated traffic management software; application software; application software in the field of performance management; computer software for unmanned aerial vehicles (UAVs); computer software relating to flight plans, flight parameters and flight paths for unmanned aerial vehicles (UAVs) and aircraft; computer software for routing and rerouting passengers and baggage; software for satellite navigation systems; computer applications for aircraft navigation systems; satellite tracking and positioning systems; satellite navigation apparatus and systems; computer software for the operation and management of satellite communication systems; computer software for analysing aircraft performance; computer software for analysing and displaying meteorological information; on board computers for vehicles; computer software for operating vehicles; computer software relating to the maintenance, servicing and repair of vehicles; computer software for self-service terminals; computer software relating to travel authorisations; computer software for locating and tracking people, property and devices; luggage check-in kiosks and machines comprised of computers, computer hardware, computer peripherals, touch screens, computer operating software, printers, scanners, scales, payment

processing apparatus, optical readers and biometric identification systems for use in relation to the check-in of persons, luggage and baggage; computer software for baggage consignment and baggage check-in equipment; computer software for use in connection with baggage check-in, baggage handling and baggage logistics services; computer software to enable the matching of identification numbers with items of baggage; computer software for accessing and searching an online platform that displays information on the location of baggage; computer software for use in connection with the provision of lost property services and lost property return services; computer software for the processing of lost baggage and baggage delay claims; GPS software; GPS apparatus; computer software for logistics; electronic payment terminals; point of sale terminals; computer software for electronic payment terminals and point of sale terminals; biometric identification systems and apparatus; biometric access control systems; computer software for biometric systems for the identification and authentication of persons; robotic electrical control apparatus; intercommunication apparatus with artificial intelligence; data processing apparatus with artificial intelligence; humanoid robots with artificial intelligence for assisting humans in concierge duties and tasks; image scanning apparatus; security control apparatus; electronic control systems for security barriers; access security apparatus (electric); access security apparatus (automatic); electric and electronic security apparatus and instruments; sensors and detectors; air traffic control apparatus; air traffic control radio equipment; computer software for air traffic control; cameras, photographic cameras, television apparatus, video recorders, CD and DVD players and recorders, wearable technological devices (smart watches, wristbands, head-mounted devices), loudspeakers, telecommunications apparatus, scanners [data processing equipment], downloadable and recordable electronic publications, remote control apparatus for opening and closing doors; Security surveillance robots; application software for robots; computer application software for use in implementing the Internet of Things [IoT]; computer hardware for use with the Internet of Things [IoT]; Internet of Things [IoT] sensors; apparatus and instruments for data acquisition; airborne data acquisition instruments; parts and fittings for the aforementioned goods.

12: Vehicles; motorised luggage carts; robotic cars; robotic carts for receiving and transporting luggage and bags; drones; unmanned aerial vehicles (UAVs); self-driving robots for delivery; parts and fittings for the aforementioned goods; transportation robots.

19: Kiosks, of not metal (non-digital); non-metal gates; security gates, not of metal; non-metal barriers for pedestrian traffic control; parts and fittings for the aforementioned goods, namely non-metallic buildings, non-metallic building materials, barriers not of metal; parts and fittings for the aforementioned goods.

35: Business management; business administration; office functions; business services; outsourcing services; providing office and business management services and information compilation and retrieval services in the field of transport and travel, for others; customer business services relating to

operations and processes for transport industries; record management services, namely, document indexing for others; data management; data management, namely data governance; Dissemination of data relating to business; arranging of contracts for others; data processing services, computerised database management, providing statistical information for business and commercial purposes; business management consultation services designed to improve efficiency of operations and processes; gathering, processing, analysing and disseminating business and trade data, business and trade statistics and business and trade information; conducting business surveys and disseminating the results; conducting and coordinating market research; business representative services, namely promoting the business and commercial interests of members of the transport industries; computerised word processing services, namely, the integration and processing of data and information through telecommunications; computerised business information retrieval services; negotiation and conclusion of commercial transactions for third parties via telecommunication systems; information, advisory and consultancy services relating to all the aforesaid services.

37: Installation, maintenance and repair of electrical and electronic apparatus; installation, maintenance, servicing and repair of telecommunications apparatus and equipment; installation, maintenance, servicing and repair of communications networks and communications systems; installation, maintenance, servicing and repair of computer networks and information technology equipment; installation, maintenance, servicing and repair of computers, computer hardware and computer peripherals; installation, maintenance, servicing and repair of kiosks (metallic), metal gates, security closures of metal and metal barriers for pedestrian traffic control; installation, maintenance, servicing and repair of transportation robots and robotic mechanisms for transportation; installation, maintenance, servicing and repair of motorised luggage carts, robotic cars, robotic carts for receiving and transporting luggage and bags and drones; installation, maintenance, servicing and repair of kiosks (non-metallic), non-metal gates, security gates, not of metal and non-metal barriers for pedestrian traffic control; information, consultancy and advisory services in relation to all the aforesaid services.

38: Telecommunications; air to ground telecommunications services; telecommunication services in the nature of transmission of data, electronic data transfer services, network services, all relating to computerised information retrieval systems; electronic data interchange services; electronic data interchange services, namely an advance passenger information system; transmission and distribution of data via a global computer network or the Internet; disseminating the results of surveys; telecommunications services for the distribution of data, including the distribution of blockchain databases and electronic files containing data relating to economic transactions; providing virtual private network services for the purpose of transacting using smart contracts; communication services relating to the provision of on-line electronic data transmission facilities for the communication and distribution of information, images and electronic messages by computerised databases; data

communications and bulletin board services; distribution services for data, images and electronic messages by any means of communication; communication services relating to operations and processes for the transport industries including transport reservations, check-in, boarding control and ticketing in the nature of electronic transmission of messages and data; electronic transmission of data and documents via computer terminals for business purposes from a computer-stored data bank and electronic; electric, and digital transmission of voice, data images, signals and messages; electronic messaging services relating to transport reservations, check-in and boarding controls and electronic ticketing; communication with transport reservation systems and databases, namely, electronic queuing services; advice, information and consultancy relating to all the aforesaid services; providing access to platforms on the Internet; telecommunication services provided via Internet platforms and portals and other media; telecommunication services provided via MPLS network; providing VPN (virtual private network) services; wireless communication services; wireless transfer of data via wireless application protocols; advisory and consultancy services relating to wireless communications; wireless transfer of data via the Internet; transmission of information via wireless or cable networks; wireless transfer of data via mobile telephony; wireless telecommunication services enabling the exchange of data; telecommunication services enabling the exchange of data via a connectivity platform; providing third party users with access to telecommunication infrastructure; providing access to a shared IT and communications infrastructure; providing online facilities for real-time interaction with other computer users; telecommunication services provided via Internet platforms and portals; providing users with access to WAN shared telecommunication infrastructure to serve the needs of the transport industry; internet access services; cloud based telecommunication services; integrated telecommunication services relating to traffic management; telecommunication services in the field of applications for transport hubs; providing access to an on-line computer database featuring trade information in the field of transport; information, advisory and consultancy services relating to all the aforesaid services.

39: Transport; travel arrangement; transportation and travel services; secure transport; booking and reservations services for transportation and travel; seat inventory information services for forms of transport; providing travel reservations and ticketing services for others; computerised travel directory services for the travel industry; provision of travel and transport information on an interactive display; reservation and booking of travel and transportation; provision of travel and flight information including flight delays, cancellations and flight or gate changes; logistics services; tracking and monitoring the transportation, distribution and delivery of goods; co-ordination services relating to all of the aforesaid; advice, information and consultancy relating to all the aforesaid services; transport hub services; transport check-in services; automated check-in and ticketing services for travellers; booking of parking; provision of airport facilities for aviation; provision of vertiport facilities; booking and arranging of access to transport hub lounges; transport hub transfer

services; ground support freight handling services provided at transport hubs; baggage check-in services; self-service automated baggage check-in services; transportation of baggage; baggage handling; providing information about travel, via the internet; security storage services [transport]; computerised transport information and reservation services; tracking of passenger or freight vehicles by computer or by GPS; tracking and monitoring the location and movement of baggage, items of luggage and items of lost personal property; navigation services; route planning services; tracking and locating of vehicles and other objects; provision of tracking and positioning services and systems; transport information and reservation services provided via shared connectivity platforms at transport hubs; cloud based transport information and reservation services; traffic management information services; transport information and reservations services provided via applications for transport hubs; providing storage in the field of transport and travel, for others; customer transport services in the field of travel, baggage and passenger check-in services, and travel management; air traffic control services; ground traffic control services; information, advisory and consultancy services relating to all the aforesaid services.

41: Education and training; arranging, organising and conducting conferences, congresses, courses, workshops, seminars, symposiums and events; educational services relating to promoting the interests and objectives of the travel and transport industries; information, advisory and consultancy services relating to all the aforesaid services.

42: Design and development of computer hardware and software, including computer databases; computer hardware and software technical consultation, technological research, development and design services; design and development computer software for use as an application programming interface (API); design and development of artificial intelligence software; design and development of machine learning software; design and development of computer vision software; technical research relating to automatic identification systems; software and firmware installation and maintenance services; computer software design and installation for data integration services and hardware, software and firmware technical support services; technical data analysis; computer software design, installation, development, maintenance, updating and consultancy services relating to the use of a computer database and computer software design for leasing/rental computer databases; computer software design, installation, development, maintenance, updating and consultancy services for creating indexes of information, hosting computer sites [websites] and hosting of web portals regarding travel information on computer networks; computer system design for computer time sharing; computer services for others, namely, computer programming and integration of computer systems and networks [computer system design and analysis]; computer rental services; computer software consultancy services featuring the design of computers and computer software consultancy services requiring a high degree of technical expertise and qualifications; consulting services in the field of design, selection, implementation and use of computer hardware and software

systems for others; technical support services, namely, troubleshooting of computer hardware and software problems and engineering services; computer software development for computer based networks; computer software design and development of computer networks; computer software design and development for communications networks; computer software design and development for wireless computer networks; configuration and implementation of computer programs and systems in networks; development of software for secure network operations; technical and technological design and planning for telecommunications networks; programming of operating software for computer networks and servers; design and development of wireless data transmission apparatus, instruments and equipment [technological design and development]; providing computer infrastructure as a services (IaaS); consultancy and information services relating to architecture technology information and computer infrastructure; design and development of hardware and software which enable the exchange of data; design and development of hardware and software which enable the exchange of data and communication via a computer platform; design and development of shared connectivity computer platforms and shared IT infrastructure; design and development of shared connectivity computer platforms shared connectivity platforms for data transfer; providing access to shared connectivity platforms on the Internet; advice, information and consultancy relating to the all of the aforesaid services; design and development of shared connectivity computer platforms; design and development of WAN (wide area network) shared computer infrastructure; installation and maintenance of Internet access software; rental of Internet access software; data security services; data security services [data encryption]; internet security services; programming of internet security programs; programming of computer software platforms; programming of software for information platforms on the Internet; design and development of anti-virus software; cloud computing; cloud seeding; design and development of operating software for accessing and using a cloud computing network; programming of operating software for accessing and using a cloud computing network; development and installation and customization of computer applications software relating to performance management; design and development of integrated software relating to traffic management; design and development of mobile and computer applications; computer software design, installation, development and maintenance, for analysing vehicle performance; computer software design, installation and maintenance services relating to the analysis and display of meteorological information; computer software design, installation and maintenance services relating to satellite tracking, positioning, navigation, communication and data sharing systems; design and development of systems, apparatus and instruments for the provision of satellite telecommunication services; design and development of computer software, computer systems and computer infrastructures for the operation of satellite telecommunication systems; design and development of tracking and positioning equipment; hosting of websites; hosting of web portals; software as a service (SaaS); software as a service (SaaS) services featuring artificial intelligence; software as a service (SaaS) services featuring machine learning software; software as a service (SaaS) services featuring computer vision

	software; providing temporary use of non-downloadable computer software to enable the recording of legal, financial, business and other economic transactions in databases, including in blockchain databases; the provision of databases for the recording of legal, financial, business and other economic transactions; platform as a service (PaaS); application service provider (ASP) services; encryption, decryption and authentication of information, messages and data; IT security, protection and restoration; computer security services for protection against illegal network access; conducting technical research surveys; advising and assisting members of the transport industries on technical safety and technical security issues and the operation and management of transportation infrastructure; information, advisory and consultancy services relating to all the aforesaid services; none of the aforesaid services relating to waste collection, waste transport, waste storage and waste treatment; telecommunications technology consultancy. 45: Security services; airport security services; passenger security screening; security screening of baggage; baggage security inspection services; passport control services; providing authentication of personal identification information; lost property services; lost property return; tracing of lost property; lost property and lost property identification services provided via the internet; setting of professional procedures, standards, regulations and rules within the transport industries; reviewing standards and practices to assure compliance with laws and regulations; border security services; locating and tracking people and property; investigation services; private investigation services; detective investigation services; personal background investigations; background investigation and research services; missing persons investigation services; contact tracing services; information, advisory and consultancy services relating to all the aforesaid services.
